The following is an examiner's statement of reasons for allowance: USP 6733645 to CHOW describes electrokinetic biasing of analytes, but does not teach or suggest doing so in a sorption process or apparatus. CHOW's object is to prevent adsorption of analytes to flow vessel walls. The prior art of record fails to teach or to suggest electrokinetically biasing a contaminant in a flow field, or an electrokinetic biaser in a sorption apparatus or system.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
